### **In FirstSearch:**

1. Select citations to import by clicking the check box next to each citation.
2. Click on the Export icon found within the gray menu bar.
3. Choose Marked Records and click Export.

### **In EndNote:**

1. Select the EndNote library where the citations should be stored or create a new library.
2. Select the correct import filter for the database you are searching. You can either search for the index alphabetically by title, or click on "Find" and highlight OCLC First Search to see the entire list of filters for OCLC indexes.
3. Click on Choose and the citations should now be imported into the EndNote library.
